### 👤 PROFILE

Proactive Full Stack Web Developer with expertise in React, JavaScript, and modern CSS frameworks like Tailwind and Bootstrap. Strong foundation in building responsive user interfaces and collaborative version control. Committed to solving complex problems and delivering high-quality, scalable web solutions.

### 🎓 EDUCATION

<b>Masai School</b> Software Development	Present
<b>K K Wagh Institute of Engineering Education &amp; Research, Nashik</b> Master of Computer Applications (MCA)	2023 – 2025
<b>G.M.D. Arts, B.W. Commerce and Science College, Sinnar</b> Bachelor of Computer Science (BCS)	2019 – 2022

### 📁 PROJECTS

#### AI TRAVEL PLANNER | React | Google Gemini API | Firebase

- Developed a smart travel itinerary generator leveraging the Google Gemini AI API for personalized trip planning.
- Integrated Google Places API for seamless location search and displayed high-quality destination photos.
- Implemented secure user authentication and trip history tracking using Firebase and Google Auth.
- Built a dynamic multi-step form to capture user preferences like budget, duration, and group size.
- Utilized React Routing for smooth navigation and optimized data fetching for real-time trip views.

#### INTERACTIVE PORTFOLIO | React | Framer Motion | AOS

- Designed a high-performance personal portfolio to showcase web development projects and technical expertise.
- Implemented advanced animations and micro-interactions using Framer Motion for a premium user experience.
- Integrated AOS (Animate On Scroll) library to create smooth scroll-triggered entry effects.
- Ensured 100% mobile responsiveness and cross-browser compatibility across all modern devices.
